TOWN OF MOULTONBORO

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Moultonboro:

As I have no background of experience in Moultonboro it is difficult to appraise fairly the efforts that have been made to give your children at least as good facilities educationally as those of the neighboring towns.

It is evident that there has been considerable attention given recently to repair work. At the Village School the alterations were rather of the construction camp order and must have been made rather as the best to be obtained at the time than with any thought that such conditions are as good as the pupils should have. The new stoves make it possible to have the rooms comfortable as far as heat is concerned. This school has excellent teachers and they are doing good work, but they are certainly doing it under far from ideal conditions.

The fact that there was 25% less tardiness in 1922-1923 than in 1921-1922 at this school, is a definite index of an improved attitude in that neighborhood toward regular attendance.

When children are surrounded by makeshifts it is hard to get them away from the makeshift ways. They are not especially disturbed and probably have no complaints, but they are missing the educational and cultural stimulus that comes from living in and caring for, well adapted and attractive surroundings.

Of course it is not always expedient to purchase ev-

TOWN OF MOULTONBORO

everything that we would like to have and there may be other things that Moultonboro needs more than a new school, but I do not know of them.

If the cost of a new building was not met all at once but carried over several years it might be possible for those now in school to secure just a little experience under modern and up-to-date conditions.

Good schools are a large asset to a town. They keep in town those who might otherwise leave to secure better facilities for their children. They encourage the settlement of others with families to bring up.

Fine buildings and grounds do not make good schools, but they certainly make their attainment easier and pleasanter.
